Dear Fabio Ovetтини:

This is in response to your request made under the *Access to Information Act* (the Act) for the following information:

- 1. How Health Canada received, handled, and acted upon my correspondence to current and former Ministers of Health about the health impacts of aircraft noise and air pollution associated with Toronto Pearson International Airport; and**
- 2. The internal processing and handling of my previous access request A-2025-000298.**

1) Records relating to my correspondence to current and former Health Ministers (Jan 1, 2024 – present).

Please provide copies of all records in Health Canada's possession that relate to my emails and correspondence sent to the current and former Ministers of Health concerning the public health impacts of aircraft noise and air pollution from Toronto Pearson International Airport, and any resulting internal or external actions taken by Health Canada.

For clarity, this includes records that reference, respond to, summarize, forward, or attach my correspondence to the Minister(s), sent from {fabio217@yahoo.com}.

Within the period January 1, 2024 to the date of your search, please provide:

- a) Ministerial correspondence and response records**
- Copies of my emails/letters to the Minister(s) held by Health Canada.**
 - Acknowledgements, replies, draft replies, or speaking points prepared for the Minister(s) or their office in response to my correspondence.**
 - Ministerial briefing notes, issue notes, QP notes, media lines, talking points, or internal summaries prepared in relation to my correspondence and the issues I raised.**

b) Internal Health Canada communications triggered by my correspondence
- Emails, memos, tasking notes, routing slips, and internal discussions between the Minister's Office, the Deputy Minister's Office, branches, directorates, or officials that reference my correspondence or summarize the issues I raised.
- Records documenting internal decisions, assessments, or agreed next steps in response to my correspondence.

c) External and interdepartmental communications arising from my correspondence Any communications by Health Canada with external parties that reference my correspondence or the issues raised in it, including but not limited to:

- Transport Canada
- Environment and Climate Change Canada
- NAV CANADA
- Greater Toronto Airports Authority (GTAA)
- Public Health Agency of Canada (PHAC)
- Ontario Ministry of the Environment, Conservation and Parks (MECP)
- Ontario Ministry of Health
- City of Toronto / Toronto Public Health
- Any other federal or provincial department, agency, or public health authority contacted about the concerns in my correspondence.

This includes records showing whether Health Canada contacted, consulted, requested information from, or provided advice to these entities as a result of my emails.

d) Meetings and stakeholder engagement

- Records of meetings, calls, or briefings where my correspondence or the issues I raised were discussed, including invitations, agendas, attendee lists, notes, minutes, and follow-up actions.

e) Scientific, policy, or risk materials relied on

- Any scientific, technical, policy, or risk assessment materials that were specifically gathered, prepared, or referenced for the purpose of evaluating or responding to my correspondence (for example, materials on sleep disturbance, cardiovascular risks, mental health, child learning impacts, or cumulative exposure related to aircraft noise and air pollution).

2) Records regarding the processing of my previous access request A-2025-000298 (May 21, 2025 – present)

Please provide records created or used by Health Canada in the handling and processing of my previous access request A-2025-000298, from May 21, 2025 to the date of your search, including:

a) Administrative and tracking records

- Correspondence-unit logs, tracking entries, tasking records, and routing slips relating to the opening, clarification steps, assignment, and processing of A-2025-000298.
- Records identifying which branches, directorates, or offices were tasked to search for responsive records and when those tasks were issued and returned.

b) Internal communications about the file

- Internal emails, notes, and memoranda discussing the status, handling, or processing of A2025-000298, including any references to delays, backlogs, resourcing constraints, or prioritization decisions specific to this file.

c) Time extension and delay considerations

- Any records documenting consideration of a time extension under section 9 of the Access to Information Act in relation to A-2025-000298, whether or not an extension letter was ultimately issued.
- Any internal recommendations, approvals, or analysis relating to the timing or delay of the response to A-2025-000298.

d) External communications related specifically to A-2025-000298

- Any communications with other institutions, if applicable, that were undertaken specifically for the purpose of processing A-2025-000298 (for example, consultations or record-locating efforts that explicitly reference this file number).
